MANUAL

HERA GMBH SELBSTLADEBÜCHSE SILENCED 3.60SD40

DETAILS

Silenced .300BLK system with monocoil silencer specially developed by HERA for use under the handguard. As with our short 9-round systems for the German sport shooting market, we set standards here. Double-sided 45/90 degree firewall lever, free choice of fore-end such as Keymod, M-Lok or Quad-Rail at no extra charge as well as housing parts in Gen. 3 design are just a few features.

Innovative polymer products specially developed by HERA and also manufactured in Germany, such as buttstocks (except Magpul PRS), grips and foregrips, are a matter of course for us in order to be able to supply a consistently high quality and a homogeneous system.

MANUAL

HERA GMBH SEMI AUTOMATIC RIFLE SILENCED 3.60SD40

DETAILS

Our preconfigured .300 BLK self-loading rifles with Mono-core silencer set one of the highest standards even in the basic configuration.

Double-sided 45/90 degree fire selector lever with 25 possible combinations, free choice of fore-end (except for model 01570) such as Keymod, M-Lok or Quad-Rail at no extra charge as well as housing parts in Gen.3 design are just a few of the features.

Innovative polymer products specially developed by HERA and also manufactured in Germany, such as buttocks (except for model 10060), magazines, handles and fore-grips are a matter of course for us in order to be able to deliver consistently high quality and a homogeneous system.
